

SECURE. PRODUCTIVE. RECYCLING.

PRO-RC™

Reduce operational costs and keep customers happy with the amazing new iPRO-RC from JCM Global®! iPRO-RC has two large-capacity chambers with Roller Friction Recycling Technology holding recycled notes for instant payouts, keeping your equipment running and your customers happy. Plus, iPRO-RC has JCM's powerful anti-stringing technology, proven note acceptance and lockable removable cash box.

FEATURES

- Recycles 2 denominations, up to 100 notes each
- User-friendly modular design
- Field-proven, industry's best anti-stringing
- Future proof, state-of-the-art sensor package
- Dust and liquid protected design
- Roller Friction Recycling Technology

BENEFITS

- Reduces float & eliminates coin starvation
- Easy maintenance, superior serviceability on site
- Reliable & trouble-free operation of machines
- Best counterfeit protection & first time acceptance
- Keeps your machine running & reduces downtime
- Direct bulk note refill into recycling chamber for optimum uptime
